Dear Mr. Hillebran:

Our office represents Terrebonne General Medical Center (TGMC). We have been provided with copies of your communications to the Medical Center, have been made aware of your communications to the Louisiana Department of Labor and the Employer of Choice Program, and have investigated your releases on the internet regarding TGMC.

It is our opinion that your actions are libelous and slanderous. Additionally, the Medical Center considers your ongoing communications to be harassing and the statements contained therein to be inaccurate and defamatory. While Ms. Peoples has responded to your May 12, 2006 letter, she has no desire to engage in any further written or verbal dialogue with you. The Medical Center requests that you cease and desist your communications, including specifically, all communications to Ms. Peoples or any TGMC employee or representative. Otherwise, the Medical Center will be forced to explore all possible legal measures available to the Medical Center and its personnel.

Sincerely,

S. Mark Klyza
